As a service to our clients, March In Montana offers you the option of bidding by telephone. If your bidding is successful, a **15%** buyers' premium will be added to your purchase price, plus any shipping charges. In the event that the number of telephone bids on a specific lot exceed the number of lines available, the telephone bid form received earliest will take precedence. Bidding on lots valued under $500 will be accepted at the discretion of MIM. You will be called approximately 3-4 lots preceding yours. **March in Montana assumes no responsibility for failure to execute telephone bids.** First time buyers unknown to us must include either a "letter of maximum check limit" from your bank or a deposit of 10% of your total bids via certified check or secured with your credit card. This amount will be returned or applied to any purchase at the conclusion of the sale.

I have read the **Conditions of Sale** section of the auction catalogue and agree to abide by the terms and conditions specified therein. **These bids will not be executed unless this form is signed**. **Please print clearly**.
